Re: Joseph B. Gould
Request for off lease Metering of

Gentlemen:

The following is a request for permission to meter gas production off lease for Joseph B. Gould's Phillips 32 # 6 Gallup-Dakota well located 340' FNL & 2280' FEL Section 32, T25N, R3W, Rio Arriba County, New Mexico.

This request is necessary because Northwest Pipeline Corporation is the purchaser of the casing head gas from this well. Northwest Pipeline Corporation would not install a meter on the wellsite due to economic considerations. Therefore, Mr. Gould negotiated a gas pipeline ROW with the surface landowner and installed the gas flowline from the location referenced above to a point located in the center of the Southeast corner of Section 29, T25N, R3W, Rio Arriba County, New Mexico. A Sundry Notice was filed and approved in November 1985 covering this installation. A copy of that Sundry Notice is attached for your review.

Should you have additional questions concerning this request, please feel free to call me at (505) 327-3729.

Respectfully,

R. D. Simmons
Agent
