RE: Federal 29 #2, P-29 ~~XXXX~~-06W

Dear Ms. Felter:

As per our telephone conversation, the 160 acres dedicated to the referenced well is not consolidated. The well will have to be shut-in until such time as you submit a new C-102 certifying that the acreage has been consolidated. If a problem occurs with lease expiration which requires that the well be produced, contact this office for instructions.

Transporters are notified with a copy of this letter to cease taking product from this well.

Sincerely,

A handwritten signature in dark ink, appearing to read "F. T. Chavez", written over a horizontal line.

Frank T. Chavez
