Re: CAÑADA OJITOS UNIT  
UNORTHODOX LOCATION  
WELL NO. 9 (C-2)

Gentlemen:

We propose the drilling of a Mancos Formation test well in the northwest quarter of Section 2, Twp. 25N, Rge. 1W, Rio Arriba County, which is in the Canada Ojitos Unit. Because of the rugged terrain, the only practical location which can be drilled in the northwest quarter of this section is in the bottom of a narrow canyon, at the following described spot:

1280' from the north line, 1610' from  
the west line

This is an unorthodox location by the rules for the Puerto Chiquito Pool. Accordingly we request approval of the New Mexico Oil Conservation Commission for this unorthodox location.

For your information we are enclosing copy of topographic map of the area showing the high topographic relief in this section, also copy of survey plat and Notice of Intention to Drill.

Should you desire to inspect the location, we will of course be pleased to take one of the Commission representatives to the location.

Yours very truly,

BOLACK-GREER, INC.
