17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting and proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We believe the well has a casing failure above the Gallup formation, we intend to set a bridge plug above the present perforations in the Gallup, isolate the hole in the 4-1/2" casing and cement same to fix it. We will subsequently drill out the cement, remove the retrievable bridge plug and place the well back in operation.
