Albuquerque, New Mexico

Dear Mr. Fannin:

We are enclosing herewith a letter which was sent to operators in the San Juan Basin pertaining to the filing of forms on wells drilled in this District.

We have received nothing on your #1 Fannin-White well in Section 13-24N-12W since you filed Notice of Intention to Drill. Will you please file Miscellaneous Reports, and a Well Log if the well has been completed.

Yours very truly

OIL CONSERVATION COMMISSION
ALBUQUERQUE, NEW MEXICO

150 East Alameda
Albuquerque, New Mexico
December 10, 1934

Mr. L. E. Brown
1100 University Ave.
Albuquerque, New Mexico

Dear Mr. Brown:

As you are aware, the New Mexico Oil Conservation Commission was organized on December 1, 1934, to conserve the oil resources of the State. The Commission is composed of representatives of the oil industry, the State, and the public. It is the policy of the Commission to encourage the production of oil in the State, while at the same time conserving the oil resources for the future. The Commission has been successful in securing the passage of the Oil Conservation Act, which provides for the conservation of oil resources and the regulation of oil production. The Commission is now working to secure the passage of the Oil Conservation Act, which will provide for the conservation of oil resources and the regulation of oil production. The Commission is also working to secure the passage of the Oil Conservation Act, which will provide for the conservation of oil resources and the regulation of oil production.

Sincerely,
Chairman

Very truly,
Chairman
