Attn: Mr. C. D. Williams, Production Superintendent

Re: Completion Reports, Kerr-McGee Oil Corp., Navajo L #1,
Southwest Quarter of Section 28, Township 24 North, Range 20 West,
San Juan County, New Mexico

Dear Mr. Williams:

The last sundry notice filed for the above well was received on December 21, 1967 and indicated that the well was drilled to a total depth of 3945 feet and that 5½ inch casing was cemented at that depth with 200 sacks of cement. The report further stated that completion work would be deferred until weather conditions improved.

We have heard reports that the well has now been completed and is shut in. Will you please file 2 copies of USGS Form 9-330, Well Record Form, with this office setting out completion details? New Mexico Oil Conservation Commission regulations require that this form be filed within 20 days following completion of the well. Thank you.

Yours very truly,

Emery C. Arnold
Supervisor, District #3
