(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well ceased producing in June of 1987 due to downhole mechanical problems. A decision was made at this time due to low oil prices and gas market problems to not pull the pump and place back on production. In April 1988 the well was pulled and placed back on production. We are requesting a reinstatement of this lease for the above reasons.
