C. J. Warren
525 Solar Road N.W.
Albuquerque, New Mexico

Dear Mr. Warren:

We have received your letter of December 19, 1956 regarding reports filed on your #1 Warren well in the SE $\frac{1}{4}$ Section 5-25N-7W.

I believe that you have misunderstood what we requested in our original letter. Although this well was drilled, no reports in connection with the drilling of it other than the Notice of Intention to Drill were filed with this office. We would like to have copies of all the Miscellaneous Reports that you filed with the U.S.G.S. Office and a copy of Form 9-330, the Well Record form. We would like to have all drilling and casing information, along with any artificial stimulation information.

We will not need copies of the Federal Form 9-329 and 9-361 which you enclosed with your letter. We do get copies of State form C-115 which is our Monthly Report form on producing wells.

Yours very truly

Emery C. Arnold
Supervisor, Dist. #3

stronger government staff, I returned to teach my Latvian class at
 17-115-2 without any aid or less serious if they had

[illegible]

We will not send copies of the Federal Form 1041 and 9-111 forms until you receive your letter. We do not need copies of State form 6-111.

Thank you very much for your letter. We are working hard to get it done as soon as possible.
