	d depths to objective sands; a ing points, a		OF WORK veights, and lengths of proposed casings; indicate mudding the, come important proposed work)
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding the, cemeir important proposed work)
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding his, cemels important proposed work) Sel length of 6400 with interry Tools.
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding the, cemeir important proposed work)
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding his, cemels important proposed work) Sel length of 6400 with interry Tools.
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding the, comes important proposed work) 661 Supply of 6400 with interry Tools.
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding the, come important proposed work) Set impair of 6400 with interry Tools, with interresponding to the proposed casings in the control of the
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding the, comes important proposed work) to a length of 6400 with interry Tools. Alternating approximate depth. Alternative of oil or One. 3 serious Ganling Vapproximately 300
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding the, come important proposed work) Set impair of 6400 with interry Tools, with interresponding to the proposed casings in the control of the
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding the, comes important proposed work) to a length of 6400 with interry Tools. Alternating approximate depth. Alternative of oil or One. 3 serious Ganling Vapproximately 300
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding the, comes important proposed work) to a length of 6400 with interry Tools. Alternating approximate depth. Alternative of oil or One. 3 serious Ganling Vapproximately 300
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding the, comes important proposed work) to a length of 6400 with interry Tools. Alternating approximate depth. Alternative of oil or One. 3 serious Ganling Vapproximately 300
pose to drill	d depths to objective sands; a ing points, a the character wall to	how sizes, w nd all other	veights, and lengths of proposed casings; indicate mudding the, comes important proposed work) to a length of 6400 with interry Tools. Alternating approximate depth. Alternative of oil or One. 3 serious Ganling Vapproximately 300
to test the set of the set to test the set of the set o	depths to objective sands; a ing points, a tipe above well to believing some at the least verte when the same the remissability 300° feely 200° of 54° i.i.e. top of 54° i.i.e. the same terms to be same	how sizes, which all other is a To- thick S thi	reights, and lengths of proposed casings; indicate mudding the, comes important proposed work) tell length of 6400' with interry Tools. bilineing approximate depth. Little DE 6600' tell or One. 3/4" Surface Casing Wapproximately 300 meanstate Casing Wapproximately 150 meanstately 200 meanstately 200 meanstately 200 meanstately 200 meanstately 200 means for compilation.
to test the set of the set to test the set of the set o	depths to objective sands; a ing points, a tipe above well to believing some at the least verte when the same the remissability 300° feely 200° of 54° i.i.e. top of 54° i.i.e. the same terms to be same	how sizes, which all other is a To- thick S thi	veights, and lengths of proposed casings; indicate mudding the, comes important proposed work) to a length of 6400 with interry Tools. Alternating approximate depth. Alternative of oil or One. 3 serious Ganling Vapproximately 300
to test the interest of the test to test the sect of t	depths to objective sands; a ing points, a tipe above well to believing some at the literature some the remission of 7 and 100° of 5 and 100°	how sizes, which all other is a To- thick S thi	reights, and lengths of proposed casings; indicate mudding the, comes important proposed work) tell length of 6400' with interry Tools. bilineing approximate depth. Little DE 6600' tell or One. 3/4" Surface Casing Wapproximately 300 meanstate Casing Wapproximately 150 meanstately 200 meanstately 200 meanstately 200 meanstately 200 meanstately 200 means for compilation.
to test the ! to test the ! cot to test as finall ! Approximate and approximate and say	depths to objective sands; a ing points, a tipe above well to believing some at the literature some the remission of 7 and 100° of 5 and 100°	how sizes, wand all other to a	reights, and lengths of proposed casings; indicate mudding the, comes important proposed work) tell length of 6400' with interry Tools. bilineing approximate depth. Little DE 6600' tell or One. 3/4" Surface Casing Wapproximately 300 meanstate Casing Wapproximately 150 meanstately 200 meanstately 200 meanstately 200 meanstately 200 meanstately 200 means for compilation.
to test the set of the set to test the set of the set o	depths to objective sands; a ing points, a tipe above well to believing some at the literature some the remission of 7 and 100° of 5 and 100°	how sizes, wand all other to a	reights, and lengths of proposed casings; indicate mudding the, comes important proposed work) tell length of 6400' with interry Tools. bilineing approximate depth. Little DE 6600' tell or One. 3/4" Surface Casing Wapproximately 300 meanstate Casing Wapproximately 150 meanstately 200 meanstately 200 meanstately 200 meanstately 200 meanstately 200 means for compilation.
to test the set of the set to test the set of the set o	depths to objective sands; a ing points, a the shows well to believing some at the shows well to be shown as the shows well and the shows at the sho	how sizes, wand all other to a	reights, and lengths of proposed casings; indicate mudding the, comes important proposed work) Leal Region of 6400 with interry Tools. Little 100 man for the committee depth. Little 100 man for compilation. Little 100 man for compilation. Little 100 man for compilation. Ling by the Geological Survey before operations may be commenced.
to test the set of the set to test the set of the set o	depths to objective sands; a ing points, a the shows well to believing some at the shows well to be shown as the shows well and the shows at the sho	how sizes, wand all other to a	reights, and lengths of proposed casings; indicate mudding the, comes important proposed work) tell length of 6400' with interry Tools. bilineing approximate depth. Little DE 6600' tell or One. 3/4" Surface Casing Wapproximately 300 meanstate Casing Wapproximately 150 meanstately 200 meanstately 200 meanstately 200 meanstately 200 meanstately 200 means for compilation.
to test the set the set to test the set the se	depths to objective sands; a ing points, a the shows well to believing some at the shows well to be shown as the shows well and the shows at the sho	how sizes, wand all other to a	reights, and lengths of proposed casings; indicate mudding the, comes important proposed work) Leak length of 6400 with intery looks. Silvening approximate depth. Livening approximate depth. Livening approximate depth. Livening by approximately 300 m committee. To approximately 300 m commit m proposed mane for compilation. By Approximately 305 mm commit m proposed mane for compilation.
to test the set of the set to test the set of the set o	depths to objective sands; a ing points, a the shows well to believing some at the shows well to be shown as the shows well and the shows at the sho	how sizes, wand all other to a	reights, and lengths of proposed casings; indicate mudding the, comes important proposed work) Leal Region of 6400 with interry Tools. Little 100 man for the committee depth. Little 100 man for compilation. Little 100 man for compilation. Little 100 man for compilation. Ling by the Geological Survey before operations may be commenced.
