Undesignated Field
Rio Arriba County, New Mexico

Dear Sir:

We propose to drill the subject well to a projected depth of 6400'. It is further proposed to complete as a single gas well in the Mesa Verde formation.

We further propose to set 300' of 10-3/4" surface casing, 4200' of 7-5/8" intermediate casing and set 2400' of 5-1/2" liner casing. We will perforate in the Mesa Verde zone.

The subject well is located 990' FSL and 1650' FWL of Section 19, T-26N, R-3W.

Very truly yours,

W. C. Dougherty
District Superintendent
