Dear Tom:

We recieved a packer leakage report on the subject well 7-31-75. Our letter of August 7, 1975 indicates that the subject report did not prove zone separation.

On April 23, 1976 we recieved another packer leakage test on the subject well where the data date was identical to the previous test.

Please set up a packer leakage test at your earliest convenience and notify the commission so we can have a witness present.

Thank you for sending the packer leakage test of the Jerome P. McHugh Apache # 4 L- 19- 26 N- 3 W. We are unable to locate a copy in this office.

Yours very truly

N. E. Maxwell Jr.  
Engineer, District 3
