Mobil Producing Texas & New Mexico Inc. seeks approval to commingle, within the Jicarilla "D", Well No. 1, production from the Gavilan Pictured Cliffs and Blanco Mesaverde Gas Pools. Both zones to be commingled are marginal gas and compatible. The ownership of both zones is 100% Mobil and the Royalty is common and going to the Jicarilla Apache Tribe of Indians. The value of the commingled production will not be less than the sum of the values of the individual streams and commingling may substantially extend the productive lives of both zones. Attached is a diagrammatic sketch of the well as it is presently equipped. Mobil plans to downhole commingle by perforating the long string of tubing above the packer or removing the upper tubing string and picking up out of the packer.
