DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

After setting 4000' of 7-5/8" Intermediate Casing on bottoms at 4060' with 200 sz. cement. Circulated. Tested 7-5/8" Intermediate Casing with 1000' for 30 minutes before and after drilling plug. Tested OK. No break.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company MONTECALA MINERAL COMPANY

Address P.O. BOX 631

ALVARO, TEXAS

By L. Y. Gorman

Title Division Superintendent

7

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for ensuring the integrity of the financial system and for providing a clear audit trail. The text also mentions the need for regular reviews and updates to the records to reflect any changes in the data.

2. The second part of the document focuses on the role of the accounting department in managing the company's finances. It describes how the department is responsible for recording all financial transactions, preparing financial statements, and ensuring that the company's books are balanced. The text also highlights the importance of the accounting department in providing accurate and timely information to management for decision-making purposes.

3. The third part of the document discusses the various methods used to collect and analyze financial data. It mentions the use of both manual and automated systems, as well as the importance of ensuring the accuracy and reliability of the data. The text also notes that the analysis of financial data is essential for identifying trends, detecting anomalies, and making informed decisions about the company's financial future.

4. The fourth part of the document describes the process of preparing financial statements. It explains that the accounting department must first ensure that all transactions have been properly recorded and that the books are balanced. Once this is done, the department can prepare the financial statements, which typically include the balance sheet, income statement, and cash flow statement. The text also mentions that these statements are often reviewed by external auditors to ensure their accuracy and reliability.

5. The fifth part of the document discusses the importance of financial reporting to management and to external stakeholders. It explains that financial reports provide a clear and concise summary of the company's financial performance, which is essential for making informed decisions about the company's future. The text also notes that financial reports are often used by investors, creditors, and other stakeholders to assess the company's financial health and to make decisions about whether to invest in or lend to the company.

6. The sixth part of the document discusses the various challenges faced by the accounting department in managing the company's finances. It mentions the need to keep up with changing regulations and standards, the importance of ensuring the accuracy and reliability of the data, and the need to provide timely and accurate information to management. The text also notes that the accounting department must be able to adapt to changes in the company's financial needs and to provide support to other departments as needed.

7. The seventh part of the document discusses the future of financial accounting. It mentions the increasing use of technology in financial accounting, the importance of continuing education for accountants, and the need for the accounting profession to adapt to the changing needs of the business world. The text also notes that the accounting profession will continue to play a vital role in managing the company's finances and in providing accurate and reliable information to management and to external stakeholders.
