No pressure decrease in 30 minutes. **7-25-58** **7-19-58** Moved in rotary. Pressured up on casing to 500#. No pressure decrease in 30 minutes. **7-25-58** **7-19-58** Moved in rotary. Pressured up on casing to 500#. No pressure decrease in 30 minutes.

6-30-58 Moved in to set surface casing. Spudded. **7-1-58** **7-1-58** Moved in to set surface casing. Spudded. **7-1-58** **7-1-58** Moved in to set surface casing. Spudded.

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "struck off" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or balling.

HISTORY OF OIL OR GAS WELL
