Attn: Mr. P. M. Barry

Re: Mobil Oil #1-C Jicarilla
SW 7-26N-3W

Dear Sir:

It is our understanding that you are using the above well as a shut-in gas well for a pressure build-up survey which you are conducting in that area. It will, therefore, not be necessary that the well be plugged and abandoned until you have been advised by the Commission.

We would also like to request that you send us a copy of this pressure build-up information as it is taken unless you regard this as confidential information.

Yours very truly

Emery C. Arnold
Supervisor, District #3
