International Oil & Gas Corporation
825 Petroleum Club Building
Denver, Colorado 80202

Attn: Mr. William F. Schwenn

Dear Mr. Schwenn:

We have received copies of Federal Notice of Intention to Drill for your Federal Miles "D" well located in Section 7-26N-7W, Rio Arriba County, New Mexico.

Problems in our machine accounting section in Santa Fe have prompted the Commission to require that well numbers not contain alpha letters or section numbers. Therefore on this well, pending your approval, I am moving the "D" into the lease designation, making it Federal Miles "D" and striking the digit 7 from the well number. The well should in the future be referred to as the "Federal Miles 'D' #2."

Yours very truly

Emery C. Arnold
Supervisor, District #3
