*Honolulu Oil Corporation
P.O. Drawer 1391
Midland, Texas*

*Attn: Mr. G. B. Evans
Division Gas Engineer*

Dear Sir:

I am writing in regard to packer leakage test submitted by you on Honolulu's Jicarilla #4 in K-4-26N-4W. You will recall that this is a well which appeared to have possible communication because of equalized shut-in pressures and which was tested to the atmosphere by Mr. Derrald Ferrari on December 20.

The test which you have submitted seems to indicate no communication. We are enclosing a supply of packer leakage test forms. Will you please conduct an annual packer leakage test on this well according to the instructions on the back of the form.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*
