Re: Request for permission to run a Packer Leakage Test on
Honolulu Oil Corporation Jicarilla #4 Mesa Verde and
#4 Pictured Cliffs (Unit K, Section 4, T 26 N, R 4 W)

Dear Sir:

This is to confirm a telephone request by Mr. Darrell Ferrari to you on December 20, 1958, to conduct a packer leakage test on subject wells.

This request was made because the pressures on the two zones were nearly identical at the end of the 7-day shut-in period preceding annual deliverability tests. By your permission, this leakage test will be run with a side static nipple because a 3/4" choke nipple is not readily available.

Yours very truly,

HONOLULU OIL CORPORATION
