*January 20, 1959*

*Honolulu Oil Corporation  
Drawer 1391  
Midland, Texas*

*Attn: Mr. G. B. Evans  
Division Gas Engineer*

*Dear Mr. Evans:*

*We are writing to confirm a telephone conversation between myself and Mr. R. C. James regarding packer leakage test on Honolulu's Jicarilla #4 in Unit K-4-26N-4W.*

*As this well was connected to the pipeline this fall we have agreed that the tests which have been conducted will be sufficient insofar as the 1958 annual test is concerned. This well should be scheduled for annual packer leakage test during the 1959 annual testing season and should have a test submitted at that time.*

*Yours very truly*

*Emery C. Arnold  
Supervisor, District #3*

New Mexico Oil Conservation Commission  
1000 Rio Arriba Road  
Albuquerque, New Mexico

January 20, 1955

For Mr. J. H. Thompson  
1000 Rio Arriba Road  
Albuquerque, New Mexico

Dear Mr. Thompson:

Reference is made to your letter of January 10, 1955.

It is the policy of the Commission to require a telephone conversation between the applicant and the Commission before a test is made. This is to insure that the applicant is fully informed of the requirements of the test and that the test is made in accordance with the rules and regulations of the Commission.

In the case of the test which you have requested, it is noted that the test is to be made on a well which is located on the property of the applicant. It is the policy of the Commission to require that the test be made on a well which is located on the property of the applicant and that the test be made in accordance with the rules and regulations of the Commission.

Very truly yours,

Walter A. Smith  
Commissioner
