Dear Sir:

As you know gas prorationing was instigated in the Tapacito Pictured Cliffs gas pool effective August 1, 1958.

We note that the unit dedication of your #5-6 'N' well located in Unit L-6-26N-4W contains 164.52 acres. You have been given an acreage factor of one on the August Gas Prorationing Schedule. In order to receive credit for the additional 4.52 acres, it will be necessary that you secure administrative approval for the unit as set out in Order R-1193, Rule 2, Paragraph B.

If I can be of any further service in this matter, please contact me.

Yours very truly,
