JICARILLA APACHE TRIBE  
OF INDIAN "K"

Farmington, New Mexico June 4, 1956

Well No. 1 is located 2178 ft. from N line and 1220 ft. from E line of sec. 3  
SE 1/4 of NE 1/4 of Section 3 26N 5W  
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
Blanco Mesa Verde Rio Arriba New Mexico  
(Field) (County or Subdivision) (State)

The elevation of the derrick floor above sea level is later ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casing, indicating points, and all other important proposed work)

A corrected notice of intention to drill this well was forwarded May 25, 1956, which listed a three string casing program and a proposal to drill with gas from 23600'. Because of a casing shortage it is now proposed to drill to total depth with mud and to set two strings of casing.

Present Proposed Program:

CASING PROGRAM			CIRCUITING PROGRAM		CORING PROGRAM
Size	Weight	Depth			
8-5/8"	26	950'	Circulate to surface		Pictured Cliffs
5-1/2"	14 1/2 & 15.50	6200'	Circulate to 8-5/8" casing		Cliff House
					Point Lookout

Proposed total depth - 6200' to test Mesa Verde

Low water loss mud with diatom additive

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
