Mr. A. L. Perter, Jr. Director New Mexico Oil Conservation Commission P. O. Box 871 Santa Fe, New Mexico

Dear Mr. Porter:

Oscidental Petroleum Corporation plans to drill a Daketa-Mesaverde Dual 2460' FSL and 1460' FWL of Section 6, 726W - R5W, Rie Arriba County, New Mexico. The location is an orthodex location for the Daketa formation but is uncrthodex for the Mesaverde formation. Oscidental Petroleum Corporation is requesting approval for an uncrthodex Mesaverde location because of the extreme topography in the area as indicated on the attached plat.

We have not notified our effset operators because the entire Section 6 is operated by Coeidental Petroleum, and the unorthodox location will not crowd the effset operators.

Very truly yours,
