Attention: Mr. Emery Arnold

Dear Emery:

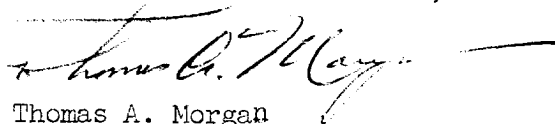

Reference is made to a phone conversation with you some weeks ago concerning reclassification of the Johnston-Shear 1-3, 2-26N., 3W., Pine Lake-Pictured Cliffs.

A gas-oil ratio test, conducted in December 1960, resulted in a calculated GOR of 2750 to 1. High line pressures have since caused the Pictured Cliffs zone to yield even less gas.

Request is made to reclassify the Pictured Cliffs zone as an oil well. Thank you for your attention in this matter.

Very truly yours,

ASPEN CRUDE PURCHASING CO.,

Thomas A. Morgan  
Production Superintendent
