Dear Bill:

Reference is made to your letter of November 17, 1958 requesting tentative approval for a gas-gas dual completion in the NE¹ Section 3-26N-3W, Rio Arriba County.

Rule 112 was recently revised so that it is no longer necessary to obtain tentative approval. I have examined your equipment plan and find that it is acceptable under the new rule. I would suggest that you proceed as set out in your letter and after completion of the dual make application for administrative approval in the usual way.

Yours very truly
