1090' from the north and west lines  
section 5, T.26 N, R.6 W

Dear Sir:

Following a favorable report from our oil and gas inspector, Al Greer, this will constitute your authority under Oil Conservation Commission Rule 104 to drill the captioned unorthodox location by reason of the extreme roughness of the terrain.

Very truly yours,

*R. R. Spurr*  
Secretary and Director
