PROPOSED CASING AND CEMENTING PROGRAM

SIZE OF HOLE	SIZE OF CASING	WEIGHT PER FOOT	SETTING DEPTH	QUANTITY OF CEMENT
12 1/4"	3 5/8"	24#	+ 400'	Cement to surface
7 7/8"	4 1/2" or	10.5#	+ 7700'	Sufficient cement to cover
	5 1/2"	15.5#		all potential pay zones
				and corrosion zones.

It is proposed to drill with rotary tools to a total depth of + 7700 ft. to test the Dakota formation. A 12 1/4" hole will be drilled to + 400 ft. and 3 5/8" casing will be set at this depth and cemented to the surface and pressure tested. A 7 7/8" hole will be drilled with water and mud and 4 1/2" or 5 1/2" casing set through the Dakota formation and cement in stages with sufficient cement to cover all potential pay zones and corrosion zones.

IN ABOVE SPACE DESCRIBE PROPOSED PROGRAM: If proposal is to deepen or plug back, give data on present productive zone and depth of productive zone. If proposal is to drill or deepen directionally, give pertinent data on surface location and measured and true vertical depths. Also show

(This space for Federal or State office use)

PERMIT NO. _____

APPROVAL DATE _____

APPROVED BY MA

TITLE _____

DATE _____

CONDITIONS OF APPROVAL, IF ANY:

Instructions

General: This form is designed for submitting proposals to perform certain well operations, as indicated, on all types of lands and leases for appropriate action by either a Federal or a State agency, or both, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 1: If the proposal is to redrill to the same reservoir at a different subsurface location or to a new reservoir, use this form with appropriate notations. Consult applicable State or Federal regulations concerning subsequent work proposals or reports on the well.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 14: Needed only when location of well cannot readily be found by road from the land or lease description. A plat, or plat, separate or on this reverse side, showing the roads to, and the surveyed location of, the well, and any other required information, should be furnished when required by Federal or State agency offices.

Items 15 and 18: If well is to be, or has been directionally drilled, give distances for subsurface location of hole in any present or objective production zone.

Item 22: Consult applicable Federal or State regulations, or appropriate officials, concerning approval of the proposal before operations are started.

**NEW MEXICO OIL CONSERVATION COMMISSION
WELL LOCATION AND ACERAGE DEDICATION PLAT**

All distances must be from the outer boundaries of the Section

Operator PUBCO PETROLEUM CORP.			Lease FEDERAL			Well No 12		
Unit Letter C	Section 23	Township 26 N	Range 6 W	County RIO ARriba				
Actual Footage Location of Well: 790 feet from the north line and 1450 feet from the west line								
Ground Level Elev. 6760		Producing Formation Dakota		Pool Basin		Dedicated Acreage 320 Acres		

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communization, unitization, force-pooling, etc?

☒ Yes ☐ No If answer is "yes," type of consolidation **Communization Agreement**

If answer is "no," list the owners and tract descriptions which have actually consolidated (Use reverse side of this form if necessary).

No allowable will be assigned to the well until all interests have been consolidated (by communization, unitization, forced-pooling, or otherwise) or until a non standard unit, eliminating such interests, has been approved by the Commission.

CERTIFICATION

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief.
