Re: Jicarilla "A" No. 8
South Blanco-Tocito Gallup Field
Unit H, Section 17
T-26-N, R-5-W
Rio Arriba County, New Mexico

Dear Sir:

Request allowable on above well until Dakota zone can be completed. A Bridge Plug (packer with a push out plug) was set at 6852' and the Gallup zone was completed and is now ready to produce. The Dakota zone is temporarily plugged off and when weather permits we will complete the Dakota zone and file the necessary packer leakage tests and Application for Dual.

Very truly yours,

TENNECO OIL COMPANY

Robert E. Siverson *RS*
District Production Superintendent
