Re: MK #4 B-6-26N-7W

Gentlemen:

A recent field inspection has found that the referenced well is in a very serious condition. The well pad has been washed out by a large arroyo and has left the wellhead approximately 10 feet away from the bank and 15 feet in the air. The wellhead is unreachable and further running of the arroyo with a build-up of debris could cause the casing and wellhead to be bent over. Please contact us immediately with your plan to remedy this situation.

Sincerely,

Frank T. Chavez
District Supervisor
