The Initial Potential on this well was 207 MCF. It was completed 11-27-51. Production by months has been as follows: January, 1952, 238 MCF; February, 275 MCF; March, 410 MCF; April, 660 MCF.

I am not positive who should have jurisdiction in such a case, but I am quite certain that if the Oil Conservation Commission does have it should be done by you. The well is on Federal acreage. Please advise.
