17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

A packer was installed 06-26-87 to isolate possible casing failure. Because of gas market demand this well has not had sufficient "on-time" to make determination of ability to recover commercial production. An extension of test period to the end of second quarter 1988 is requested.
