Re: Jicarilla 101 #3
N Section 1, T-26-N, R-4-W
30-039-20294

Gentlemen:

Attached is a copy of the allocation for the recompletion of the subject well that was completed 9-24-01. DHC-2877 was issued for this well.

Gas:	Pictured Cliffs	29%
	Mesaverde	49%
	Dakota	22%
Oil:	Pictured Cliffs	0%
	Mesaverde	11%
	Dakota	89%

These percentages were calculated using rate-time reserve estimate comparisons for each respective formation. Because the condensate production increased slightly with the addition of the Mesaverde formation, the oil has been allocated based on percentage increase of average production before and after the recompletion.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Peggy Cole'.
