☐  
☐  
☐  
☐

(NOTE: Report results of multiple completion or zone change on Form 9-330.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

A packer was set in the above well at 7137' on January 30, 1982, to temporarily isolate a casing failure. A request was approved to produce the well for evaluation for 90 days. Since that time, the well has not been induced to flow by swabbing methods. The packer was determined to be defective and was pulled and replaced on March 10, 1982. Swabbing efforts were resumed with no success. We request a 30 day extension to unload the well, at which time we will repair or plug and abandon it.

*30-day extension begins May 1, 1982*
