Benson-Montin-Greer Drilling Corporation
221 Petroleum Center Building
Farmington, New Mexico 87401

Gentlemen:

By letter dated March 14, 1978, and October 20, 1977, this office requested Sundry Notices, form 9-331, outlining your plans to commence drilling operations on well No. 23 (N-4) Puerto Chiquito, located in SE $\frac{1}{4}$ SW $\frac{1}{4}$ sec. 4, T. 26 N., R. 1 E., NMPM, Rio Arriba County, New Mexico, on Federal oil and gas lease S.F. 080312-A.

Application for Permit to Drill the subject well was approved July 5, 1972. A recent inspection found that the well pad had been constructed, but that the well had not been drilled. It will be necessary to satisfactorily restore the well pad. The U.S. Geological Survey will contact the U.S. Forest Service for restoration requirements and then forward the requirements to you.

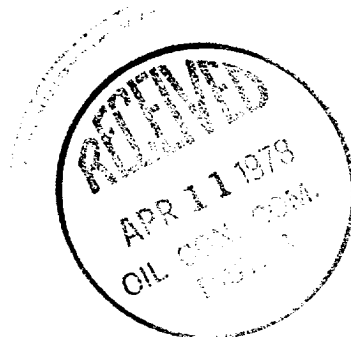

Your Application for Permit to Drill well No. 23 (N-4) Puerto Chiquito has been rescinded this date and is returned herewith. If at some later date you decide to drill at this location, it will be necessary to file a new Application for Permit to Drill.

Sincerely yours,

(Orig. Sgd.) C. A. BARRICK
Carl A. Barrick

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The number of transformed cells was determined by the number of colonies obtained on the selective medium. The results are the mean of three independent experiments. Error bars represent standard deviation.

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.4 billion. The number of people aged 65 and over is expected to increase from 250 million to 450 million. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion.
