Gentlemen:

On January 4, 1973 Application for Permit to Drill was approved in this office for your Polluche State #1 well in P-32- T 25N- R 7W. We subsequently received copies of electric logs and on 12-30-74 you submitted Form C-103 stating that the well was a shut-in gas well waiting on connection. We have never received Forms C-103 reporting casing installation nor have we received Form C-105 well record form. You are therefore in violation of the Commissions Rules and Regulations with respect to the timely filing of information. Please comply immediately in order to avoid legal action as specified by New Mexico law.

Thank you.

Yours very truly,

Emery F. Arnold
Supervisor, District #3
