15. ELEVATIONS (SHOW DF, KDB, AND WD)

381' GL

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

(Ref. Sundry dated Oct. 4, 1982; letter from James F. Sims dated Jan. 4, 1983 and discussion w/Messrs. Keller and Walter of Jan. 7, 1983).

Subsequent to packer and tubing installation 5/29/81 this well was on T/A status to 8-6-82. Subsequent backflow tests indicate no casing failure. Decreased production results from high line pressure. Permission is requested to produce well through tubing and packer.

Subsurface Safety Valve: Manu. and Type
