Gentlemen:

Following is our multi-point development plan for surface use and restoration for our well no. 291, located in Southeast Quarter of Section 17 26N 6W, Rio Arriba County, New Mexico.

- (1) Location to be built 150' off existing road. Copy of topo map showing proposed location and existing roads in area.
- (2) 150' of new road required for this location. Road will be no wider than 20'. 1 water bar will be installed where road hits location.
- (3) Location of existing wells shown on topo map.
- (4) No tank battery or production facilities required. Note: Gas Company of New Mexico as purchaser of gas will apply for permit for pipelines and production equipment.
- (5) Water will be hauled from Caulkins Oil Company well No. 130, located in Northwest Quarter of Section 9 26N 6W, Rio Arriba County, New Mex., well identified with red circle on topo map. Roads on Federal lands used to haul water from water well to location also shown on topo map.
- (6) No construction materials needed for road or location.
- (7) All cuttings, trash, garbage and etc. will be confined to reserve pit and small fenced pit on location. After rig is moved out, area will be cleaned up, small pit covered and reserve pit fenced until fluid in pit evaporates. Reserve pit will be covered as soon as it dries sufficiently to proceed without damage to outside surface area.
- (8) No camp required.
- (9) Layout plat for location and reserve pit attached. Location lays on 10% slope. A 10' cut will be required on Northwest side of location. Reserve pit will be built from earth material. Cedar trees on location site will be walked down and covered in location fills. Reserve pit will not be lined.
- (10) Reserve pit will be covered and cleaned up then reseeded with BLM recommended seeding program with $2\frac{1}{2}\%$ Crested Wheatgrass, $2\frac{1}{2}\%$ Smooth Brome, $1\frac{1}{2}\%$ Fourwinged Saltbrush (dewinged) and $1\frac{1}{2}\%$ Nomad Alfalfa per acre. Reseeded area will include all location and reserve pit area to within 5' of all facilities. Seeding shall be done between July 15 and Oct. 15. All facilities maintained by Caulkins Oil Company shall be painted Green, Number 34127.
