U. S. GEOLOGICAL SURVEY  
DURANGO, COLO.

**General:** This form is used to request for submitting proposals to perform certain well-known, and repeats of such operations when completed, as indicated, on Federal and Indian lands pursuant to contract, lease or other arrangements entered into by any State, on all lands in such State, pursuant to applicable State law and regulations, for carrying out operations concerning the use of the land and the mineral resources thereof to be submitted, particularly with regard to local, area, or regional planning and management activities. Such work shall be done either or may be funded by, or may be obtained from, the local Federal and/or State office.

NOTE 2: If there are no applicable State requirements, list only on Federal or Indian land should be described in accordance with Federal requirements. Consult local agency for details on how to describe the location.

NOTE: The person to abandon a well and subsequent removal of abandonment should include such special information as is required by local Federal and/or State officials. In addition, such proposals and reports should include recommendations for the placement of data on any former or present productive zones, or other zones with present significant value, which would have a potential for producing future oil or gas. Forming and sealing or placement of cement plugs, mud or other material placed below, between and above plugs, when it is a result of production of any line, line, or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site operations are closed for abandonment (year, month, and day).
