

SURFACE USE PLAN  
Continental Oil Company  
AXI Apache - K No. 6A  
Rio Arriba County, New Mexico

The plan is to accompany "Application for Permit to Drill" the subject well. The following is a discussion of pertinent information concerning possible effect which the proposed drilling of the well may have on the environment of the well and road sites and surrounding acreage. A copy will be posted on the derrick floor so that all contractors and sub-contractors will be aware of all items of this plan.

1. Existing Roads

- A. The proposed well site is as follows:  
1090' FSL and 1750' FEL, Section 9.
- B. Exhibit "A" is a portion of an AXI Apache "K" Lease map showing existing roads and proposed new road and location.
- C. The access roads are shown on Exhibits "A" and "B".

2. Planned Access Roads

Refer to the attached archaeological report.

3. Location of Existing Wells

See Exhibit "A".

4. Location of Existing and/or Proposed Facilities

- A. Tank Batteries: Two 400 Bbl. tanks and a production unit will be located on each well site.
- B. Rehabilitation: Pits will be backfilled and leveled as soon as practical to original condition. Commencement of rehabilitation operations will immediately follow removal of drilling and completion equipment from location and rehabilitation of the surface is planned to be completed within 45 days from commencement.

5. Water Supply

The supply of water will be hauled from Largo Wash, see Exhibit "C" (SE/4 of Section 10, T-24N, R-4W, Rio Arriba County, New Mexico.)

6. Source of Construction Materials

Not applicable. Drilling pad to be compacted.
