6. Were all operators listed in Item 5 above notified and furnished a copy of this application? YES X NO If answer is yes, give date of such notification January 4, 1980.

CERTIFICATE: I, the undersigned, state that I am the Production Superintendent of the Supron Energy Corporation (company), and that I am authorized by said company to make this report; and that this report was prepared under my supervision and direction and that the facts stated therein are true, correct and complete to the best of my knowledge.

Kenneth E. Rodley
Signature

*Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard perforation unit in one or more of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.

OIL CONCENTRATION SYSTEM
SANTA FE, NEW MEXICO
PACKER-SETTING AFFIDAVIT
(Dual Completion)

STATE OF New Mexico)
COUNTY OF San Juan)

Gene Longacre, being first dually sworn according to law upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Baker Packers in the capacity of

District Manager and as such as its authorized agent.

That on December 11, 1979, he personally supervised the setting of
a Baker Lok-Set Model "L" Sliding Sleeve (1.50 I.D.) in Supron Energy Corporation's
(Make and Type of Packer) (Operator)

Jicarilla "A" Well No. 23, located in Unit Letter
"D", Section 24, Township 26 North, Range 4 West,
N.M.P.M., Rio Arriba County, New Mexico.

That said packer was set at a subsurface depth of 5529 feet, said depth measurement having been furnished by BlueJet.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as to prevent any movement of fluids across the packer.

Baker Packers
Company

Gene Longacre
Its Agent

Subscribed and sworn to before me this the 8th day of January, AD, 19 80.

Beth G. Stuart
Notary Public

My Commission Expires: August 25, 1980
