6032' GR 6044' KB

(NOTE: Report results of multiple completion or zone change on Form 9-330.)

JUL 30 1982

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

APD approval for the Miles Federal No. 1E stipulates that the MV section of the MKL No. 1, SW/4 SW/4, Sec. 5 be permanently plugged before a MV Completion can be affected in the subject well. It is requested that this requirement be waived inasmuch as the MKL No. 1 not only is incapable of production, but is not presently equipped to produce, nor has it produced since 1967. It is proposed however, that the MKL No. 1 be permanently plugged and abandoned upon the conclusion of DEPCO, Inc's current new-well completion program approximately in mid-September, 1982.

Verbal approval of this proposal has been granted by Mr. Errol Becher, Minerals Management Service, Farmington, New Mexico on 7-26-82.
