Re: NSL 233-E
SW 1/4, Sec: 16, 26N, 6W

Gentlemen:

This well was last well to be drilled in Section 16, 26 North, 6 West on our Dakota Infil Drilling Program.

The only Quarter Section without a Dakota well was in Southwest Quarter. Only the North half of the Southwest Quarter is in the non standard proration unit as approved by order No. R-7006 for Mesa Verde Zone and order No. R-1627 for Dakota Zone.

Because no well could be drilled in Southwest Quarter at a standard location in this non standard proration unit. We here by request approval of the NSL, 1715' from West line and 1740' from the South line of Section 16, 26 North, 6 West, in both the Mesa Verde and Dakota Pools.

Copy of C-105 with all Dakota and Mesa Verde wells in Section shown is attached.

Yours very truly,

Charles Vergara
Superintendent,
Caulkins Oil Company
