Kimbell Oil Company of Texas has been assigned the operating rights to this well from Merrion Oil & Gas Corp.. Kimbell's intent is to fully evaluate the recompletion potential of several zones behind the pipe above the Gallup formation which has been depleted and approved for Plugging and abandonment by the BLM as requested, by Sundry Notice, submitted by Merrion.

Kimbell herein requests that the BLM cancel and revoke the approval given to Merrion to Plug and Abandon this wellbore on or before December 1, 2001, and grant Kimbell a six month extension in time to gather all data, information and well logs from Merrion to evaluate and prepare specific proposals to recomplete and test several zones available in this wellbore. Kimbell will then submit new Form 3160-5 "Sundry Notices of Intent" for approval to proceed with the recompletion and testing proposals.

Kimbell will specifically be evaluating the following formations behind pipe in this wellbore that are productive in the immediate surrounding area:

- 1. Mesa Verde**
- 2. Chacra**
- 3. Pictured Cliffs**
- 4. Fruitland Coal(s)**
