Location for Consolidated Oil & Gas, Inc.
Candido 1E, Blanco Mesa Verde, 1993' FSL & 1600' FSL,
Sec 15, T26N, R7W, Rio Arriba Co., New Mexico

Dear Mr. Ramey:

We hereby request approval to complete the Mesa Verde zone
in an unorthodox location for the subject well. Copies of
the well location plat, topographic map, and a map showing
offsetting operators are attached for your reference.

Approval to drill and complete the Basin Dakota zone was
given on July 11, 1984. The well was originally moved to
an unorthodox location to avoid a bluff to the south and
a pipeline branch running through the orthodox location.

A copy of this application is being submitted to all off-
setting operators by certified mail with a request that
they furnish your office with a waiver of objection and
return one copy of the same to Consolidated.

Yours very truly,

D. E. Richardson
Production & Drilling Sup't.
