Convert oil tank # 5050 to "Well Treatment Fluid-Temporary Storage Only". Tank will be used to store condensate purchased from Giant Refinery for Apache Corporation's condensate treatments on Rod pumping wells in the immediate area. Tank is disconnected from all production lines associated with normal production except for the vent line. Tank will not contain any fluids overnight. All valves will be sealed & Giant Refinery & Apache Corporation run tickets will account for fluid. Tank will be labeled "WELL TREATMENT FLUID-TEMPORARY STORAGE ONLY". See Attached Site Diagram.
