☐ Other -

13. Describe Proposed or Completed Operations

Sundry notice submitted 09-27-93 stated that cement for 4 1/2" casing was not circulated to surface, and that it was planned to squeeze cement with completion rig. Per the CET-CBL-GR Cement Advisor log attached, it was determined that top of cement is at 3200', with top of the Ojo Alamo at 3349'. Therefore, this well was not squeeze cemented.

14. I hereby certify that the foregoing is true and correct.
