13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The subject well was initially permitted as a single zone Basin Dakota development gas well. We now propose to also complete the Blanco Mesa Verde interval and either dually complete or downhole commingle both zones. An application to downhole commingle both zones will be submitted for approval. A C-102 for the proposed Blanco Mesa Verde completion is attached.
