Denver, Colorado 80203

Attn: Mr. Frank Haskin
Area Supervisor

Dear Mr. Haskin:

We have received Forms C-103, Notice of Intention to Plug for your #1 Hannett Federal well located in Unit A, Section 25 Township 25N Range 8W. As this well is located on Federal Land your Notice of Intention to Plug should be filed with the U.S.G.S in Farmington for approval.

The Oil Commission will require, however, that one additional plug be placed in addition to those shown on the notice. You have stated that you are going to place a 15-sack plug from 2100-1980 and a 10-sack cement plug in the top of the casing, with no production casing being pulled. We would further require that a 100-foot plug be placed at the base of the Ojo Alamo Sandstone so that separation of the Tertiary and Cretaceous sections will be effected after deterioration of the production casing.

Yours very truly

Emery C. Arnold
Supervisor, District #3
