Well No. 1 is located 660 ft. from [N] line and 660 ft. from [E] line of sec. 28

NE 1/4 28 25 N 13 W  
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)

Wildcat San Juan New Mexico  
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6249 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding logs, cementing points, and all other important proposed work)

It is intended to deepen this hole from its present abandoned depth of 5054' to approx. 5800' to test the Dakota formation.

The well at present has 7" casing cemented with 150sx cement at 5054'; if we encounter gas and/or oil in commercial quantity in the Dakota, we plan to run a 4" liner, cemented back up to the 7" casing log, perforate and frac said formation.

This well was drilled to its present T. D. by Magnolia Pet. Co.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Address

This is to certify that the well location shown on the plat in Section B was plotted from field notes of actual surveys made by me or under my supervision and that the same is true and correct to the best of my knowledge and belief.

Date Surveyed

Registered Professional  
Engineer and/or Land Surveyor.

Certificate No.

(See instructions for completing this form on the reverse side)

INSTRUCTIONS FOR COMPLETION:

1. Operator shall furnish and certify to the information called for in Section A.
2. Operator shall outline the dedicated acreage for both oil and gas wells on the plat in Section B.
3. A registered professional engineer or land surveyor registered in the State of New Mexico or approved by the Commission shall show on the plat the location of the well and certify this information in the space provided.
4. All distances shown on the plat must be from the outer boundaries of Section.
5. If additional space is needed for listing owners and their respective interests as required in question 3, Section A, please use space below

This well was originally drilled to a T. D. of 5054' and abandoned by Magnolia Petroleum Co., as their Postelle-Federal #1.

We plan to reenter the same hole and deepen same to the Dakota formation at approximately 5800'.

\* "Owner" means the person who has the right to drill into and to produce from any pool and to appropriate the production either for himself or for himself and another. (65-3-29 (e) NMSA 1953 Comp.)
