Re: Lease S.F. 078058

Dear Mr. McGrath:

Enclosed please find another copy of Form 9-331C which includes the history of the deepening operation. This form had been sent to your office November 5, 1974, after a telephone advisory to use Form 9-331C in lieu of Form 9-330 which your office had not at that time made available to us after our request for same. We have never received acknowledgment of your receipt of Form 9-331C.

Also enclosed is a Form 9-330 and another copy of the log of subject well.

We have not applied for approval to abandon this well because of our plans to attempt to recomplete same at a shallower depth. At such time that we elect to abandon this well approval will be requested.

Respectfully yours,

George E. Payne, Jr.
