The elevation of the derrick floor above sea level is 6235 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is proposed to name this well CBU No. 36 for inclusion as a producing well in the Central Bisti Lower Gallup Sand Unit. This well was formerly known as the Phillips - I-Tah-Nip No. 2.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Sunray Mid-Continent Oil Company
